

RAINBOOT REWRAP

making your rainboots resist not only the acid rain but also the killing gaze of the fashion fascists.

a >SELF_PASSAGE< method

1. get some rainboots, bicycle tube and pieces of velcro.

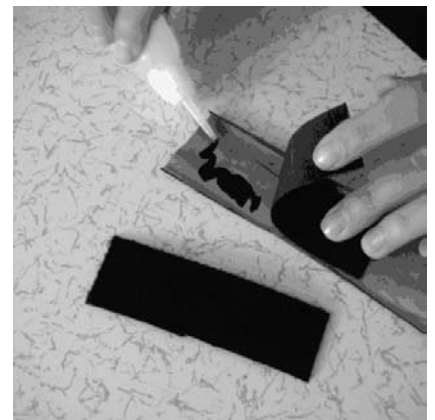

2. cut the tube open and then split it two long pieces.

3. open the rainboots in the front to the ankle.

4. fold the tube piece and glue the middle under the sole with epoxy.

5. attach velcro on one end of the tube.

6. and also on the other end of the velcro.

7. simple remake - boots like new.

8. wrap up tightly around the ankles - resist!!
