

STRETCH PANTS

reforming a pair of pants to make them wrinkled and elastic for the heroic passage of time.

a >SELF_PASSAGE< method

© copyleft by >wronsov< Feb. 2006

1. get your old pants ready for reform.

2. and get some elastic ribbon (about 3m).

3. unstitch the bottom seam and inner seam up til knee.

4. measure with slight tension around calf with the elastic ribbon. cut.

5. pin the elastic ribbon by the edges (by old inner seam)

6. and pin in middle (opposing seam) with the middle of the ribbon.

7. stretch the fabric and ribbon and pin together in middle

8. continue pinning between the places you pinned earlier until you have a pin almost every 2 cm.

9. and sew together elastic ribbon and fabric at pins, so it looks like this from outside.

10. and like this inside.

11. repeat whole procedure about 5 cm below last ribbon.

12. nand after 5 ribbons it could look like this..

13. re-sew the inside seam that was unstitched in beginning.

14. and you have wrinkly pants reversely restored to old authentic and heroic look. Refuse any peeling session.
