

ZIP-PANTS

non-violent method of slimming a pair of dressy pants to become more bicycle friendly without cutting the fabric.

a >SELF_PASSAGE< method

© copyleft by >wronsov< Nov 2005

1. take an old pair of dressy pants.

2. unstitch bottom seam to make them a little longer.

3. to look like this. zig-zag bottom.

4. take on the pants and use pins to see how much you can take in.

5. fold the fabric along the pins and attach zipper on top.

6. don't put the fold too close to the zip teeth.

7. make a seam close to the fold.

8. expand your range - slim down.
